

Enable Cookies – PC – Internet Explorer

Step 1: Go to the **“Tools”** drop-down tab (on the right side of the screen) and go to the **“Internet Options”** tab.

Step 2: A box will appear with tab options from **“General”** to **“Advanced”**. Select the tab labeled **“Privacy”**. Under the heading **“Settings”** locate the **“Advanced”** tab and click it.

Step 3: The advanced tab will open another window with the title **“Advanced Privacy Settings”** as the listed name. Under the section titled **“Cookies”**, make sure the first box labeled, **“Override automatic cookie handling”** is checked, and that the circles labeled **“Accept”** are both clicked under the sections labeled **“First-party Cookies”** and **“Third-party Cookies”**. Click **“OK”** and cookies will be enabled.
