

## Enable Cookies – PC – Internet Explorer

**Step 1:** Go to the *“cog wheel”* icon (top-right corner) and select *“Internet Options”* from the drop-down menu.

**Step 2:** Go to the **“Privacy”** tab and click on **“Advanced”** in the Settings section.

**Step 3:** Verify that **“Override automatic cookie handling”** is checked when the Advanced Privacy Settings window opens. Verify that First-party and Third-Party Cookies are **“Accepted”** and click the **“OK”** button to enable cookies.
